# Mitigate the risk

## Benefits

Staying compliant can be a complex and time-consuming process for seafarers. You need to factor in international laws, ever-changing maritime regulations, plus marine rules that protect crew, cargo, vessels, and the environment. And the repercussions for getting it wrong can be significant, incurring both financial and reputational consequences.

Regs4ships replaces the manual process of sourcing, researching, collecting, reviewing, updating, distributing, and tracking regulations on a vessel-by-vessel basis – so that you can focus on implementing operational changes.

Its regulatory databases are updated and managed by the LR OneOcean team of professional mariners, giving you the most quality data and an extensive archive built over 20+ years.

The innovative solution can be used on PCs and tablets. With the Onboard version allowing crew to seamlessly switch between online and full offline operating modes – enabling uninterrupted access to regulations. Our secure, encrypted and stable back up for mandatory documents when connectivity is limited, known as the Compliance Index, ensures crew always maintain compliance. By hosting documents on our own servers, we remove any further risk of losing access to publications.

**Mitigated risk** of non-compliance through uninterrupted access to regulations.

**Provides clarity** around regulation changes and updates, helping you understand the impact on internal processes and policies.

**Saves time**, removing manual searches across multiple publications.

**Conserves valuable hard drive space on board** as there is no need to store the entire Regs4ships database offline.

**Supports advanced planning** to ensure operations and procedures remain compliant, with unified experiences for ship and shore.

**View the full picture** with related documents and contextualise the wider regulatory landscape.

**Demonstrates compliance** to authorities, regulators, and insurers.

## Features

**Online and full offline operating modes** for crew onboard, **including a secure, encrypted and stable** backup for mandatory documents.

**Document histories** signify that documents are up to date.

**Advanced searchability** with a customisable view, including favourites, saved searches and the latest updates by source.

**Secure, encrypted and stable backup (Compliance Index)** pre-defines the essential documents required for compliance on board in line with carriage requirements.

**New amendments to regulations** are processed and live **within 48 hours** of being made available by the source, and a **12-month timeline** of forthcoming amendments.

Includes **regulations for flag states** with White List status and others under the Paris MoU PSC regime. **Additional datasets**, such as LR Rules, are also available online and offline.

The **Compliance Index** provides a dedicated view of documents for inspection purposes whilst **document histories** and **Latest Updates** demonstrate you are up to date, and therefore compliant. Regs4ships is also **endorsed by flag states and authorities** as a compliant solution.

# Regs4ships

Streamline compliance  
and gain peace of mind  
with a simple, unified platform.

OneOcean<sup>®</sup>  
Comply

# A trusted source for regulatory publications

Through OneOcean Compliance, wherever a vessel is in the world it has the resources it needs to remain compliant with all regulatory and environmental requirements. And provides an accurate audit trail with consistent digital reporting – all accessible through the OneOceanLR Platform.

Reg4ships, the Regulatory Compliance module, provides uninterrupted access to live and archived regulatory publications from multiple sources, including the IMO, ILO and numerous flag states. Fully digital, it's a fast and efficient way of accessing compulsory maritime legislation, regulations and supporting guidance to ensure every vessel maintains compliance.

**Search our unrivalled collection of maritime legislation, regulations and documents in one digital tool.**

The image shows two side-by-side screenshots of the Reg4ships platform. The left screenshot displays the 'International' section of the platform's navigation menu, which includes links to IMO, ILO, EU Legislation, WHO, Anti-Piracy, MCA Notices, Instructions to Surveyors, and Misc. The right screenshot shows a detailed view of a document titled 'MMC-245 - Authorized Private Maritime Security Companies (PMSC) Transiting High-Risk Areas (Online Application) (Rev. 01/22)'. The document is a 'Merchant Marine Circular' from the Panama Maritime Authority. It includes sections for 'Document Info', 'History', and 'Associated Documents', along with a list of related circulars and notices. The interface is clean and modern, designed for easy navigation and access to maritime regulations.
